

## V-ring type A

V-ring type A with bevel back serves as a pressure less, axial rod seal with a very short mounting length, which is clamped on a shaft. The flexible sealing lip seals a counterface at a right angle to the shaft preventing dirt, dust and splash to enter the construction.

### Material

Seal :	NBR	FPM
Colour :	black	brown
Hardness :	60° Shore A	60° Shore A

### Operational circumstances

T :	NBR: -40 till +100 °C/ FPM: -25 till +200 °C
V :	≤8m/s, from 8 to 12 m/s radial support is recommended. With speeds over 15 m/s the lip will come off the counter face.
